Visigothics Twice Removed Supply List

Saturday, November 14 at North Tempe Multigenerational Center | 10:00am

- [ ] Pencils: a small assortment so you can see what seems to work best for you.
- [ ] Your Preferred Eraser(s)
    - Pink Pearl, kneadable, white plastic vinyl...
- [ ] Soft brush for brushing away eraser crumbles. (optional)
- [ ] Just about any kind of paper EXCEPT copy paper. Joyce likes paper with the tiniest bit of tooth to it.
    - Sulfite paper, mixed media pad, sketch pad, drawing paper
- [ ] If you are a restless sort of person, you could pack some colors for adding color to your work.
    - Colored pencils would work well.
    - If you are truly an adventurous and somewhat skillful person, (and therefore not likely to flood the paper with water,) and not given to complaining should the experiment "go south," you could venture forth with watercolor.... indeed you have my blessings to do so. And yes, this is how we learn.
- [ ] Very small dots of glitter glue, while not used in the previous centuries and are thus-ly not historical, may be desired, (dare I say *needed* by certain individuals.) You know who you are.
- [ ] WORDS! Start collecting phrases of between 2 words and 10 words that speak to you. You don't want to be staring at your paper trying to figure out what to write. You need options. Collect phrases, you can decide later which ones you will use.

You might also want to bring:

- A nametag so we can learn your name!
- Drinking water
- Your lunch
- Snacks
- Your recent artwork or classwork to Show and Share
- Items to give away
- A sweater if you get cold in AC!
- A cushion to soften or elevate the chair seat
